***New DHSMV Domain Name and Email Format
-Making Changes that Matter to You-***

Tallahassee--In our continuing effort to ensure the best user experience for all customers, the Department of Highway Safety and Motor Vehicles will change its internet domain to “flhsmv.gov” starting March 1, 2008.

For customers who want to visit the Department’s website, they will log onto www.flhsmv.gov where they will find our on-line resources and information including our internet based services for vehicles and drivers licenses renewals..

“This is part of our ‘Making Changes that Matter to You’ campaign. This new address is easier to remember and will help identify the department as a government organization. These changes support our vision of one DHSMV, unifying our Divisions as one Department working together, leading the way to a Safer Florida,” said Executive Director Electra Bustle.

E-mail addresses for Department members will also change tonight. Addresses will now be “firstname.lastname@flhsmv.gov”.

The current “www.hsmv.state.fl.us” web address will continue to work as well the existing e-mail addresses for members. However, outgoing Departmental e-mail will reflect the new e-mail address.
